"Sham helped me to finally communicate the emotions and performances I knew were inside me. He also connected me with world class musicians (they play with John Mayer, Beyonce, David Bowie, Paul Simon, etc.), then worked with them on the arrangements he wrote for my songs. I couldn't believe what I was hearing when I first heard the tracks! ***The CD is amazing.***"

**EV FOX - Maui Psychologist & Singer / Song-Writer**

"Sham is a truly a well-rounded artist and brings that passion, creativity and commitment to every project. He creates perfect arrangements, helps with song structure and songwriting, plays just the right guitar parts and even knows when to step out of the way and let you do your magic. I cannot recommend him strongly enough."

**PATRICIA OSOWSKI - Pianist & Singer / Song-Writer**

"I am currently working on my second record with Sham. The first record that he produced and mixed for me 10 years ago is still in my top three favorite records of all time (AC/DC "Back in Black" and Coldplay "A Rush of Blood to the Head" are the other two). Even knowing what I can expect to come from this new recording, it already is way surpassing my expectations."

**DAVID KOLKER - CFO PineBridge Investments & Blues Singer / Guitarist**
